Importance: High

Just spoke w/ my sup. As I suspected, if it's not necessary for EPA to be present, we will pass on the field visit this time. In the meantime, could you pls send me the as-builts? (don't know if it was sent, I don't recall receiving anything). I can discuss w/ Shannon her findings when she returns from the site.

Also -- if possible, please let me know 4-6 weeks in advance of the next potential site visits so I can figure out a way to add on other field work in the vicinity which would make the travel authorization easier.

Thanks a lot!

Sarvy

Hi Sarvy,

Thanks for being flexible. No Problem, we can do a site visit in April for you. We could also do one next week on the 23rd if that date works for you?

Nathan Bello | Conservation Biologist/Planner | d: [415.524.7238](tel:415.524.7238) | o: [415.454.8868](tel:415.454.8868) x 1800 | c: [916.508.4993](tel:916.508.4993) | bello@wra-ca.com

The entire IRT is supposed to sign off on release of the construction security, but only the Corps is required to sign off on the 404 credits (with consultation from the rest of the IRT). I think you could waive the need to do the site walk (I think maybe you did that for Area E as-builts?) if you didn't want to meet me out there separately.

Sorry to be a best about trying to make it happen sooner, but getting that security released as soon as possible is really important to Tracey.

Is it possible for us to stick with 3/27 for the rest of the IRT and I can meet you out there next week to show you around separately Sarvy? The Sponsor would not be very happy about having to wait another month to get the Construction Security released.

Hi Shannon,

I am sorry to hear about your ankle. I hope you recover quickly. We can do Area A largely as a drive through if needed.

Any of those dates work, but I know Tracey would prefer the 21st.

Does that work for the rest of the IRT?

Nate

Dear IRT,

We are happy to announce that restoration of Area A at the Petersen Ranch Mitigation Bank is anticipated to be complete on Wednesday, March 8. The earthwork was completed last fall, cattle exclusion fencing and temporary irrigation system was completed last month and the last few plants are being installed early next week. With all the rain we have been getting we have not needed to use the irrigation system yet and are pleased to see surface ponding in the wetlands and a new migrating channel at the stream restoration site. We are excited to show you all the hard work the contractors have done and the successes that are already becoming apparent.

Per the BEI, the release of the construction security and second credit release are dependent on submittal of the as-builts as well as a site visit by the IRT. We would like to schedule a site visit and walk through to get the as-builts approved by your agencies and get the construction security released as soon possible. We anticipate providing you with the as-built documentation by the end of next week and could schedule a site visit as early as the week of the 13th.

Would you all be available for a site visit the week of the 13th? Please let me know the earliest dates you are available.

Thanks,

Nate
